SUMMARY

Senior art director with agency experience leading campaigns for healthcare, real estate, retail, sports and public programs in Brazil. I create key visuals and roll them out across out-of-home, stadium media, social, paid media and landing pages. I also run my own generative AI image pipeline (ComfyUI, Stable Diffusion, Magnific) with Photoshop finishing, which delivers studio-grade characters, scenes and product shots without a photo shoot.

EXPERIENCE

Senior Art Director, ZF Comunicação — Goiânia, Brazil

- Lead art director for Unimed Goiânia, a healthcare cooperative of almost 3,000 doctors, and FGR Incorporações, a real estate developer ranked in Valor 1000.
- Created "Peace in Football", an anti-violence campaign for the sponsor of the state's three rival clubs: key visuals, stadium screens, pitch-side banners, billboards, bus shelters and social carousels, in two phases.
- Directed AI-assisted 3D campaigns, including "Every Piece Counts" for the UN International Year of Cooperatives and the World Water Day character series, combining ComfyUI generation with Photoshop compositing.
- Designed paid social systems for five gated communities and responsive landing pages in RD Station (CRM and marketing automation) for lead generation.

Art Director, Trinus Co. — Brazil

- Art direction for real estate and multi-ownership developments, including the Golden Dolphin Condo Beach anniversary campaign and the sales stand for 140 Wellness Marista, developed with SIM Engenharia.

Art Director, Agência Places — Brazil

- Art direction for advertising campaigns and social media across the agency's client accounts.

Founder and Art Director, Magosi Design and NT SHOP — Independent

- Freelance art direction, brand identity and web design for regional brands, working as a B2B contractor.
- Founded NT SHOP, a direct-to-consumer streetwear label: identity, apparel graphics, AI-directed lookbook and motion, and a print-on-demand online store.
