SUMMARY

I've worked in design and marketing since 2014. I started as a production artist in Brazilian agencies and worked my way up to senior art director and creative director. Most of my work is campaigns for healthcare, real estate, retail, restaurants and sports: first the key visual, then every format it has to live in, from billboards and stadium screens to social, paid media and landing pages. When a brief needs a character or a scene that can't be photographed, I build it in Flow and Magnific and finish it in Photoshop.

EXPERIENCE

ZF Comunicação, Goiânia — Oct 2024 – Oct 2026

- Handled the Unimed Goiânia account, a health plan cooperative of almost 3,000 doctors.
- Created "Peace in Football", an anti-violence campaign for the sponsor of the state's three rival clubs. It ran in two phases on stadium screens, pitch-side banners, billboards and Instagram.
- Made the 3D characters and miniature scenes for "Every Piece Counts" (UN International Year of Cooperatives) and for World Water Day, generating in Flow and Magnific and finishing in Photoshop.

MundoW3, Catalão (Goiás) — Sep 2020 – Jan 2022

Magosi Design (my company) and NT SHOP — Ongoing

- Magosi Design is my registered company in Brazil, and I use it to take art direction, branding and web projects as a contractor.
- For FGR Incorporações, a home developer in the Valor 1000 ranking, I designed the ads for five gated communities and the landing pages that collect the leads, built in RD Station (CRM and marketing automation).
- I also run NT SHOP, my own streetwear label: I designed the brand and the graphics, make the lookbook with AI and run the print-on-demand store.
